

# Battlers' Ballad

Battlers' Ballad is a new project from Chloë & Jason Roweth, featuring Bill Browne on kit drums. The trio have put together a repertoire of 'under-sung' Australian traditional, bush, early country & contemporary music in striking arrangements - open, fresh, vibrant & inventive.

True to the name, "Battlers' Ballad" is a story of the battlers, workers, those who've struggled (and sometimes fought for) what they believe is their place in the world. It is a story of convicts, bush workers, footballers, bushrangers, rail & road.

Expect to laugh and cry. Expect a new look at the old and an old take on the new.

Come & be immortalised as part of a live DVD recording!
